Remedial Project Manager  
U.S. Environmental Protection Agency  
Region V, SR-6J  
77 West Jackson Boulevard  
Chicago, IL 60604-3590

Re: Quality Assurance Project Plan  
ACS NPL Site

Dear Mr. Adler:

Please find enclosed the original copy of the signature page for the approved Quality Assurance Project Plan (QAPP) for the American Chemical Service, Inc. NPL Site. The QAPP covers the groundwater monitoring, off-gas and effluent sampling, and the PCB-excavation soil sampling activities at the Site.

Please place this page inside the front cover of the final QAPP we previously sent to you. We are also providing another full copy of the QAPP and it includes the completed signature page. You requested this copy for placement at the information repository in Griffith.

We are also sending copies of this QAPP to IDEM and to Black & Veatch. If you need additional copies of the QAPP please let me know and we can forward them to you, or to whomever you specify.

Sincerely,

MONTGOMERY WATSON HARZA

Peter J. Vagt, Ph.D., CPG  
Project Manager

Attachments: Original signature page  
1 full copy of QAPP, including completed signature page

cc: S. Grady, IDEM (1 copy)  
L. Campbell, B&VWS (1 copy)  
ACS Technical Committee (1 copy without appendices to each member)
